DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite because the range for the variables, “x” , “n” and “m” are not defined in the claim. Because the range for these variables are not defined in the claim, the time point $(m*(x-1)/n)$ and $(m*(n-1)/n)$ can be infinite numbers.

Also, the value “n” is not defined in the claim and is unclear. Applicant should consider defining “n” as defined in paragraph 25 of the specification.

Also, the variable “x” is used in claim 1 as a “gray level x” and “heating the ribbon x times.” It is unclear which “x” is referred to in the time point equation. It is also unclear how “x” can represent a level and a time.

Claims 2-6 depend from claim 1.

Due to the nature of the 112 second paragraph problems, prior art could not be applied. Once these problems have been overcome, any relevant prior art will then be applied.
